Cherry City Chiropractic Informed Consent

REGARDING: Chiropractic Adjustments, Modalities, and Therapeutic Procedures:

I have been advised that chiropractic care, like all forms of health care, holds certain risks. While the risks are most often minimal, complications such as sprain/strain injuries, irritation of a disc condition, dislocations of joints, and although very rare, fractures, and possible stroke (estimated to be related in one in one million to one in two million cervical adjustments), have been associated with chiropractic adjustments.

Treatment objectives, as well as the risks associated with chiropractic adjustments and all other procedures provided at Cherry City Chiropractic have been explained to me to my satisfaction and I have conveyed my understanding of both to the doctor. After careful consideration, I do hereby consent to treatment by any means, method, and or techniques, the doctor deems necessary to treat my condition at any time throughout the entire clinical course of my care.
